Maryland/Israel Development Center

Annual Report
2020/2021
Pandemic Year in Review

July 2021
The past 16 months have been unlike any time in our history. The coronavirus pandemic played a major part in each of our lives and continues to impact global business and trade. From mask mandates to widespread shutdowns, the MIDC, like all organizations, needed to pivot to an online only platform. The MIDC responded to the pandemic by creating new and exciting programs which allowed us to continue to promote business and trade between Maryland and Israel.

We started two webinar series which cumulatively attracted over 1,500 participants. Business Survival Strategies targeted Israeli entrepreneurs with techniques to help them survive the shutdown and prepare for post-pandemic business life, while the Israel Technology Series covered a broad range of topics including Israeli Covid vaccine development and tracing and testing technologies, a cybersecurity forum with the Cybersecurity Association of Maryland and the Embassy of Israel, the Abraham Peace Accords with U.S. Senator Ben Cardin and Israeli and UAE investors, a session on the current state of venture capital investing, and many more. A complete listing and description of the MIDC webinars, sponsors, panelists and moderators can be found in this report.

The MIDC also launched BizRepUSA to help Israeli companies find qualified business development professionals to represent them in the U.S. market while they were prevented from traveling during the coronavirus pandemic.

We are grateful to our Founding Partners, the Maryland Department of Commerce, Israel’s Ministry of Economy and Trade and The Associated: Jewish Federation of Baltimore. We also want to recognize our Board of Directors, Strategic Partners and Members who continue to support the MIDC. Please feel free to share this booklet.

We look forward to seeing you in-person in 2022 when we celebrate the MIDC’s 30th anniversary.

Sincerely,

Alvin Katz, Chair

Barry Bogage, Executive Director

Get Involved With Your Community

We make it easy! Whether you want to volunteer, learn more, listen to great speakers or meet new friends, we’ve got you covered. Here are some great ways to get involved:

✔ Join a Professional Affinity
   Connect and network with other professionals and industry leaders in your field. Go to associated.org/professionals

✔ Connect with Young Adults
   Check out our IMPACT programs and events that include educational and leadership development as well as social opportunities. Visit associated.org/20s30s

✔ Find Your Niche through Associated Women
   Serve with purpose and support the community through hands-on volunteering, leadership opportunities and educational, engagement programs that inspire personal growth, social action and women’s philanthropy. Go to associated.org/women

✔ Attend an Event
   Learn, grow and become inspired. Events range from guest speakers on a host of topics, as well as social and networking opportunities. See what’s happening at associated.org/calendar

✔ Volunteer with Us
   Make a difference today! We offer countless opportunities to give back to your community. Whether it is on your own or as a group, once a week, once a month or throughout the year, you can make a difference in someone’s life. Go to associated.org/volunteer to learn more.
WEBINARS

Business Survival Strategies: Surviving the Shutdown
April 2, 2020
The webinar presented techniques to help Israeli entrepreneurs survive the pandemic. Presenters included Tamar Krongrad, Corporate Partner and Head of the Cross Border Commercial Practice at Tadmor Levy & Co., and Mark Rapson, CPA and Director, KatzAbosch, Chair of the firm’s Health & Life Sciences Groups. Barry Bogage, Executive Director, Maryland/Israel Development Center moderated the panel; 24 Israeli entrepreneurs participated.

Israeli COVID-19 Vaccine Developments Webinar
May 6, 2020
This webinar featured three Israeli biotech companies working on Covid vaccines. Speakers included Yaky Yanai, CEO, Pluristem Therapeutics, Vered Kaplan, CEO, Orgenesis, and Dr. Mark Levitt, Medical Director, RedHill Biopharma. Barry Bogage moderated the webinar; 180 people participated.

Israeli COVID-19 Testing and Tracing Solutions Webinar
September 10, 2020
Israeli high-tech companies are developing technologies to test, trace and predict Covid outbreaks. Sponsored by Epstein Becker Green and moderated by MIDC board member and EBG Senior Counsel in the Health Care and Life Sciences practice Karen Mandelbaum, the program’s speakers included Elya Tagar, Vice-President Business Development and General Manager USA Operations, Diagnostic Robotics, Dean Nohe, Director of Business Development, ELTA North America, and Oren Gavriely, CEO, NanoScent; 85 people participated.

How to Stay in Touch with Your Customers During the Coronavirus Pandemic
September 15, 2020
This Business Survival Strategies webinar featured a panel of senior business development executives who shared their techniques for remotely staying in touch with customers so they can weather the coronavirus pandemic. Sponsored by Hyman, Phelps, & McNamara and moderated by MIDC Board member and HPM Director Gail Javitt, panelists included Steve Mensh, Senior Vice President and General Manager of Textron’s Electronic Systems and Geospatial Solutions, Tim West, Vice President of Sales for Advance Business Systems, and David Warshawski, Founder and CEO of Warshawski; 35 companies participated.

International Cybersecurity Partners and Perspectives – Israel and Maryland
October 22, 2020
A joint program of the MIDC, the Cybersecurity Association of Maryland, the Embassy of Israel and Whiteford, Taylor & Preston, LLP, this webinar focused on emerging cyber threats and technological solutions being developed in Israel and Maryland, along with opportunities for collaboration between companies. Speakers included MIDC Board member and Whiteford, Taylor & Preston Partner and Co-Chair of the Data Security and Privacy Practice Howard Feldman as moderator, along with Cybersecurity Association of Maryland Executive Director Samantha Conklin, Josh Cohen, Director of Trade and Partnerships in the Economic and Trade Mission at the Embassy of Israel, Yossi Appleboum, CEO, Sepio Systems, an Israeli company with U.S. headquarters in Maryland, Roy Zur, CEO and Founder at Cybint, Gilad Peleg, CEO, SecBi and Lee Kappon, CEO, Suridata.AI; 150 people participated.
What We Wish You Knew: Healthcare Executives Share the Needs and Priorities for Innovation in U.S. Healthcare Webinar

**November 12, 2020**

The focus of this webinar was to educate medical technology developers on the needs of U.S. healthcare institutions. Speakers included Dr. Jonathan Ringo, former President of Sinai Hospital, now CEO & Founder of Verappo, Dr. Jeffrey Cohen, Alleghany Health Network, Dr. Michael Oppenheim, Northwell Health, and Aimee Quirk, Innovation Oshner. Avi Rozenzweig, MIDC Israeli Business Development Representative, moderated the program; 190 people participated.

Israel in the Shadow of COVID-19

**November 17, 2020**

The MIDC partnered with the Taub Center for Social Policy Studies in Israel to present the most accurate and up-to-date research and analysis on the Covid pandemic's impact on Israel. Sponsored by LifeBridge Health and moderated by Jonathan Thierman, MD, Ph.D., LifeBridge Health’s Chief Medical Information Officer and Medical Director of LifeBridge’s Virtual Hospital, the webinar featured Professor Avi Weiss, Taub Center President and Professor Alex Weinreb, Taub Center Research Director.

Co-sponsoring Organizations: American Friends of Hebrew University, American Jewish Committee, Washington, D.C., American Society of the University of Haifa, American University, Center for Israel Studies, Baltimore Israel Coalition, Baltimore Jewish Council, Hadassah Greater Baltimore, Jewish Community Relations Council of Greater Washington, Jewish Federation of Howard County, JMORE, Maryland Department of Commerce, The Associated: Jewish Federation of Baltimore, The Gildenhorn Institute for Israel Studies, University of Maryland, The Jewish Federation of Greater Washington, Towson University, DFI and University of Haifa; 175 people participated.

The Abraham Peace Accords: A Catalyst for International Business with Israel, UAE, Bahrain and Beyond

**January 27, 2021**

The groundbreaking Abraham Peace Accords between Israel, the United Arab Emirates (UAE) and Bahrain are dramatically changing the business landscape of Israel and the Middle East. This webinar focused on how the historic peace accords are opening new business opportunities in Israel, the UAE, Bahrain and beyond. The webinar was sponsored by Baker Donelson and moderated by Howard L. Sollins, Shareholder at Baker Donelson.

With over 500 participants, speakers included U.S. Senator Ben Cardin of Maryland, Yifat Alon-Perel, Minister of Economic and Trade Affairs at the Embassy of Israel in Washington D.C., Jon Medved, Founder and CEO of OurCrowd, and Dr. Sabah al-Binali, Venture Partner and Head of the Gulf Region for OurCrowd and one of the first senior Emiratis to work with an Israeli firm.

The Current Landscape of Venture Capital Investing

February 24, 2021

This webinar featured a panel of American and Israeli investors discussing the status of venture capital investing and investing strategies as a result of the pandemic. Sponsored by Crowell & Moring and moderated by the firm’s Israel Practice Chair and Corporate Department Co-Chair Sam Feigin, speakers included Raghab Bhargava, Senior Associate at New Enterprise Associates (NEA), Nissim Darvish, M.D., Ph.D., Venture Partner, OrbiMed, Oren Charnoff, Vice President, Hanaco Ventures, and Elizabeth Good Mazhari, Interim Managing Director, Maryland Venture Fund; more than 200 people participated.

The Promise & Implications of Artificial Intelligence

May 27, 2021

This webinar, part of the newly created “Emerging Industries” webinars*, featured Israeli and Maryland experts who shared how AI ventures are attracting robust investments and harnessing AI capabilities across industry sectors. The webinar was sponsored by Epstein Becker Green and moderated by Nathaniel M. Glasser, member and co-leader of the firm’s AI and COVID-19 practice groups. Speakers included: Dr. Orna Berry, pioneering Israeli high-tech entrepreneur, former Israeli Chief Scientist and Chair of Israel’s National Committee on AI and Data Science, Dana Gourevich, Ph.D., Director of the Chief Technology Office, Israel Innovation Authority, Yoran Bar, CEO & Co-Founder, BeaconCure, an Israeli data analytics company building an AI platform and Michael Rosenbaum, Founder and Chair, Catalyte and Arena Analytics, two artificial intelligence companies in Maryland that use AI for predictive analytics in workforce and labor market; 130 people participated.

*MDIC introduced a new series of webinars in the Spring 2021 entitled “Emerging Industries” and future topics will be Quantum Computing, Autonomous Vehicles and 5G.

How Quantum Computing Will Revolutionize the World: Maryland & Israeli Experts Weigh In

Wednesday, June 30, 2021

This webinar, the second in the “Emerging Industries” series, featured a panel of Maryland and Israeli experts who shared how quantum computing will revolutionize the world and the leadership roles these communities are taking. The webinar was sponsored by the University of Maryland and moderated by Julie Lenzner, the Chief Innovation Officer and Acting Director for the University of Maryland’s newly launched Quantum Startup Foundry. Speakers included Dr. Tal David head of Israel’s National Quantum Initiative, Dr. Christopher Monroe, Professor of Physics at the University of Maryland, Professor of ECE and Physics at Duke University and Co-Founder and Chief Scientist of IonQ, Inc. in College Park, MD, Shlomi Cohen, CEO & Co-Founder of QuantLR, a quantum cryptography company and Dr. Itamar Sivan, Co-Founder and CEO of Quantum Machines (QM), the first quantum startup in Israel; over 125 people participated.
AT UNITED THERAPEUTICS, WE’re FOCUSED ON THE STRENGTH OF A BALANCED, VALUE-CREATING BIOTECHNOLOGY MODEL

WE’re CONFIDENT IN OUR FUTURE thanks to our fundamental attributes, namely our obsession with quality and innovation, the power of our brands, our entrepreneurial culture, and our bioinformatics leadership. We also believe that determination to be responsible citizens—having a positive impact on patients, the environment, and society—will sustain our success.

WE’re DEVELOPING NOVEL, life-extending technologies for patients with pulmonary arterial hypertension and other rare pulmonary conditions.

AND WE HOPE TO MAKE A DIFFERENCE in the future through our work at Lung Biotechnology PBC. There, we’re focused on addressing the acute national shortage of transplantable lungs and other organs with a variety of technologies that either delay the need for such organs or expand the supply. Lung Biotechnology is the first public benefit corporation subsidiary of a public biotechnology or pharmaceutical company.

ACHIEVE YOUR BUSINESS GOALS IN BALTIMORE COUNTY

No matter the challenges you’re facing right now, The Baltimore County Department of Economic and Workforce Development can help you take your business goals across the finish line.

Starting with financial loan programs that can provide capital from $50,000 to $250,000 for real estate, equipment or improvements, to assisting with business plan development, or giving a hand when hiring employees, we are here to help.

To learn more visit us at: BaltimoreCountyBusiness.com

Baltimore County Department of Economic & Workforce Development
When COVID-19 hit, Israeli companies were stranded outside their largest foreign market, the U.S. The MIDC launched BizRepUSA to help Israeli companies find experienced U.S. business development professionals to represent them in the American market while they could not travel here.

**PROGRAM**

With limited international travel because of the coronavirus pandemic, Israeli businesses cannot disappear from the American market. You must stay in touch with your customers, investors, suppliers, partners and prospects.

WhatsApp and Zoom aren’t enough. You need to be here.

The Maryland/Israel Development Center’s BizRepUSA program will help you find qualified business development representation in the U.S. market.

**PROCESS**

BizRepUSA will introduce you to experienced business development professionals with specific industry expertise and networks to represent you to American customers and prospects. Once the MIDC makes the connection, you will negotiate your own contractual arrangements for responsibilities, hours and payment directly with the representatives.

For more information and to see the representatives’ profiles, go to marylandisrael.org/bizrepuusa.

2020 BIRD GRANT ANNOUNCEMENT

The University of Maryland and Bar Ilan University in Israel were awarded an $18.4 million, five-year grant to promote energy security and economic development through the research and development of innovative energy storage technologies. The U.S.-Energy Center is jointly sponsored by the U.S. Department of Energy and Israeli Ministry of Energy, along with the Israel Innovation Authority and U.S.-Israel Binational Industrial Research and Development (BIRD) Foundation which the MIDC represents in Maryland. The U.S. partners in the energy storage program include the University of Maryland’s Energy Innovation Institute (MEI2), Saft and Ion Storage Systems, all of which are located in Maryland. In Israel, academic partners include Bar Ilan and Tel Aviv Universities and the company participants are 3DB and Materials Zone. The MIDC made the initial introduction between the University of Maryland and Israel Ministry of Energy a few years ago. The Center will research solid-state batteries, which offer a breakthrough in energy per unit, cost, safety and flexibility for specialized applications in aerospace, transportation and stationary storage.
In 2019, the MIDC organized *MarketReach America* to educate Israeli entrepreneurs on the Lean Startup entrepreneurial development program, used by the National Science Foundation to train American scientists to start companies and commercialize their technology. Partnering with the Israel Innovation Authority, University of Maryland, Baltimore, Abell Foundation and Maryland Department of Commerce, 16 Israeli medical technology and digital health entrepreneurs went through the training in Israel; 10 came for the two week “customer discovery” trip to Baltimore.

Two of the participants were judged as best-in-class and were awarded one-year free office space in the University of Maryland, Baltimore BioPark Incubator, GaitBetter and TikTalk. While the pandemic precluded the companies from opening offices, they charged ahead with their U.S. market entry by hiring Maryland-based business development professionals.

**GaitBetter**, developers of a revolutionary fall prevention system for the elderly and infirmed, installed their first system in Maryland this year at Fitness for Health, a therapeutics and training center in Rockville, MD.

GaitBetter’s website is: [gaitbetter.com](http://gaitbetter.com).

**TikTalk** developed an artificial intelligence-based speech language therapy program that is transforming personalized speech therapy by providing children access to engaging professional speech language therapy remotely. The company’s “TikTalk2Me” technology was just released on Apple and Android tablet platforms.

TikTalk’s website is: [tiktalk.care](http://tiktalk.care).
